SURPRISE SPRUNG IN RED RIVER CASE

COUNSEL WITHDRAWS PETITION AND TRIAL IS TERMINATED WITH NOBODY KILLED.

By the Associated Press

OKLAHOMA CITY, March 27.—Counsel for the Judsonia Development association, Oklahoma claimants to the disputed Red River lands involved in the boundary controversy between Oklahoma and Texas, brought about a new and unexpected development when federal district court opened at 10 o'clock this morning, by moving that their application for writs of attachment against Texas claimants and petitions for the arrest of the latter on contempt charges, be dismissed. Federal Judge R. L. Williams immediately granted the motion and the court took an entirely new case dropping the Red River case indefinitely.

The motion for dismissal of the plea for writs of attachment was made immediately upon the opening of court, by J. B. Root of counsel for the Judsonia company. Judge Williams urged the plaintiff to continue the case in view of the time already consumed in the hearing and the progress made toward a decision, but Attorney Root insisted that it was the desire of his side to withdraw, and Judge Williams granted the motion without further discussion. Indefinite postponement was announced and the court proceeded to hearing of another case.

Exactly what will be the next move of the Judsonia association was not apparent in court this morning. Attorneys pointed out, however, that by withdrawing the case before the hearing was completed, and before judgment was announced, the plaintiffs reserved the right to bring it again into court either before another judge or with amended petition.

Ending as it did the case leaves the Texas claimants still in possession, the appointment of joint receivers still as remote a possibility as before, and the Oklahoma claimants still unsatisfied, while the oil from wells on the land flows at the rate of \$5,000.00 a day.

Thos. W. Gregory, assistant attorney general of Texas, stated today that he will leave tonight for Washington, and requested permission to take with him certified copies of orders and writs of Texas courts leaving other copies uncertified in their place. An objection by E. E. Blake for the Judsonia association opposed the granting of the request, but Judge Williams overruled the objection and gave Gregory the permission asked for on condition that he file later other certified copies of the same documents.

HOLDENVILLE WINS

OVER ADA H. S. NINE
The Holdenville high school baseball team won over Ada's nine yesterday by a score of 11-1. The local lads have a good nine and are not discouraged by their defeat of yesterday but will continue their practice with renewed efforts in the hopes of having better luck in the future.

Dr. Morrison leaves a wife, three sons, father, mother, four brothers, and three sisters to mourn his death.

Perplexed Over Ruhr

PARIS, March 27.—The Allies have not yet given permission to send troops into the Ruhr district. The French continue to insist that military occupation control shown by Germans would further endanger execution of the Peace Treaty, declaring that there would be no way of getting them out again except by force.

ABBE BUILDS CHURCH WITHIN A CHURCH FOR PEOPLE IN RUINED BELGIAN VILLAGES

Abbe Moestart standing before his improvised church with Capt. C. O. Demewitz, American Red Cross officer from Gary, Ind.

Churchgoers of a dozen little villages in devastated Belgium are still receiving religious teaching in a novel church within a church at Staden, Belgium. It was built by Abbe Moestart. The old church was battered down by shell fire. The abbe and some members of his flock hauled to the ruins the corrugated iron tops of shelters used by soldiers during the war and constructed a roof reaching from one of the main walls standing to a lower wall inside the church. A cracked bell, dug from the ruins of the old church, is used to summon the people to services.

ILLINOIS WOMEN TO VOTE IN PRIMARY

By the Associated Press

CHICAGO, March 27.—Illinois women will be permitted to vote at the presidential preference primary, April 13, regardless of whether national suffrage has been ratified by 36 states prior to that time.

Attorney General Brundage today, at the suggestion of Governor Frank O. Lowden, reversed a previous ruling denying the women the vote.

JOHNSON CHARGES STOLEN ELECTION

By the Associated Press

BUFFALO, New York, March 27.—Senator Hiram Johnson of California, in an address here yesterday, asserted that he and not General Wood had won the Presidential Preference Primary in Minnesota.

"I went into Minnesota where the state machine is for Wood," he said. "They repeated the Presidential Preference law and then the machine called a trick primary to be held in the middle of winter between seven thirty and eight thirty o'clock in the evening, with many voting places not announced. The condition disenfranchised farmers. But I went into Minneapolis and St. Paul and called on the people to repudiate the machine and they did."

"I have with me the figures of the primary vote and they show I won. But the Associated Press has not sent out these figures and has allowed the impression to prevail that Wood carried Minnesota."—The results of the Minnesota Presidential Primary held on March 11 were not tabulated by the Associated Press. The returns were gathered and announced by the Republican State Committee and the total vote was not given out as the returns were not completed before the county conventions were held.

CHILD MURDERER STILL AT LARGE

NO TRACE DISCOVERED OF MAN WHO KILLED LITTLE GIRL IN OHIO. POSSES CONTINUE SEARCH

By the Associated Press

STUEBENVILLE, Ohio, March 27.—Identity of the person or persons who killed eleven year old Frances South near her home at Adena, 25 miles west of here, had not been established today, in spite of the fact that numerous armed posses have scoured the surrounding country since the body of the girl was found Thursday afternoon.

Officers assisted by citizens were searching today for a man dressed in soldier's uniform. This man according to several Adena residents, was seen late Thursday near the spot where the body, with the hands tied with a hat cord, was found. The four negroes arrested Thursday night as suspects, still were in jail in Carrollton today.

KUMRID JUGGED FOR INCITING RIOTING

By the Associated Press

PHILADELPHIA, March 27.—Chas. Solomon, one of the Socialist assemblymen unseated by the New York Legislature, and three other workers were arrested last night when the police broke up a mass meeting in Labor Lyceum Hall to protest against the unseating of the five Socialist members of the New York Assembly.

The others arrested are Joseph P. Cannon, President of the United Mine and Smelter Workers Union, who is also charged with making sedition utterances, R. W. France, a lawyer, and J. A. Gerber. They will be given a hearing later in the day.

FATHER OF BOY BELIEVES HE DID NOT COMMIT SUICIDE SAYS INDICATIONS POINT TO A STRUGGLE

Two dead and one seriously injured is the result of a tragedy in the southeastern part of the county last night, the dead being U. G. Winn, Jr., and Andy Coleman. Miss Josephine Beach is suffering from a wound in the head, which is not expected to prove fatal. Sheriff Duncan has a letter taken from the body of Winn, the contents of which he did not give out.

It is another story of a young man's devotion to the woman he loves—devotion carried to an extreme end.

The tragedy occurred about a mile and one-half southwest of the Haskell School House, fifteen miles southeast of Ada. The young people of the community last evening attended a oie supper at the schoolhouse. It is said that Coleman and Miss Beach left for the latter's home. Immediately afterwards young Winn also left, telling some of the boys that they might never see him again. Coming up with Coleman and Miss Beach, Winn is reported to have asked the girl to get out and go with him. What was her reply, could not be learned. Winn opened fire with a 38 automatic, the first shot going into the air. The second shot entered the right side of Coleman, the third shot entered the right temple of Miss Beach. Going a few steps away, Winn fired another bullet into his own right temple, causing death instantly it is believed. It was a few minutes before others reached the scene. This is the theory first advanced by officials.

Young Winn's body was taken to the ranch house, where he has been living, and was to be brought to Ada today. No announcement has been given out yet, so far as could be learned, about the funeral.

Coleman lived until 9 o'clock this morning, when he passed away, according to dispatches from Stone-wall. The girl is expected to recover, barring complications. The bullet entered just below the right temple and lodged in her jawbone, according to reports this afternoon.

The tragedy is a shock to the entire southern end of the county. Young Winn is well known in the county. He was the son of Judge and Mrs. U. G. Winn of Ada, and was reared in this city. He had many friends here who are saddened by his untimely end.

Coleman has been staying at the home of Joe Westbrook. He has the reputation of being a hard working industrious farmer and a good citizen.

Miss Beach bears an enviable reputation in the community, being to one of the prominent families. It is said that until a few

Fred F. Brydia Pays Record Price For Ada Property

A real estate deal was consummated today whereby Fred F. Brydia becomes the owner of the Guaranty Bank Building, on the northwest corner of Main and Broadway. The consideration was \$40,000, the largest single real estate transaction in the history of Ada. It is understood that Mr. Brydia in the near future will pull down the present building and erect a modern six story skyscraper of either brick or stone.

The front of this building is one of the oldest structures in the city. It was used by the first bank in the city, the old Ada National. When the Ada National was merged with the First National, the building was occupied by a confectionery, later becoming the home of the Farmers State Bank, now the Guaranty State Bank.

The property was purchased from Mrs. Lizzie Mitchell.

ENEMIES WISH TO BEAT TREATY AND KILL PRESIDENT IS CHARGE OF WILLIAMS MISSISSIPPI SENATOR

By News Special Service

JACKSON, Miss., March 27.—Addressing a joint session of the Mississippi Legislature today, Senator John Sharp Williams declared it "was the deliberate purpose of those who fought ratification of the peace treaty to protract the illness and bring about the death of President Wilson."

Senator Williams declared historians would brand the present time "as the period of the great conspiracy" by which the League of Nations was defeated in the United States Senate.

"Do you blame me," he asked, "for saying that I would rather be a dog and bay at the moon than to spend one minute in the Senate after the expiration of my term of office."

WORKERS CONTROL THROUGHOUT SAXONY

By the Associated Press

FALKENSTEIN, Saxony, March 27.—Workers have taken over control of cities and towns of lower Saxony but there is an impression that their ascendancy will be short lived as they are not sufficiently organized in a military way to resist pressure successfully. In this town Max Hooz, whose regular vocation is that of lecturer in a motion picture theater, is directing affairs. Widespread reports that he had established a soviet republic here made him famous throughout Germany a few days ago.

GERMAN LEAD BY RUSSIAN OFFICERS

By the Associated Press

LONDON, March 27.—One hundred Russian officers sent to Germany by Nicolai Lenin, Russian bolshevik premier, are assisting in the operation of the German workers' army before Wesel, according to a Copenhagen dispatch to the London Times, quoting interview with an Ebert government officer by the correspondent of the Politiken.

The dispatch says the workers have taken over control of the Krupp works at Essen, and are turning out arms and ammunition. The officer expects Wesel to be evacuated by government troops in order that devastation and bloodshed may be avoided, the correspondent says.

FAMINE REIGNS IN RUSSIAN COUNTRY

By the Associated Press

WARSAW, Poland, March 27.—Confusion and wretched conditions generally prevail throughout Russia according to a report made to British and American representatives here by a technical expert who has spent months in Russia. There is absolutely no wheat flour throughout the country for export, he says, and wool is scarce as sheep throughout the country have been killed for food.

The expert, who is a native of Russia, was permitted to visit the farm and manufacturing districts and is emphatic in declaring the task of rehabilitating the country under the leadership of Lenin is hopeless. He asserts the Bolsheviks have nothing but contempt for America, England and France, and that counterfeiters are floating large quantities of American and British money throughout Russia.

FERRIS ATTACKS MILITARY BILL

COMPULSORY TRAINING GETS HARD WALLOP FROM THE LAWTON CONGRESSMAN

WASHINGTON, March 27. (Special.)—Representative Scott Ferris delivered in the house today a speech protesting against the establishment of compulsory military training as a fixed American policy. Applause punctuated Mr. Ferris' declaration that "as one who voted every dollar the nation needed and supported every law that would bring early success to our arms during the war, I want to make it perfectly clear that I am not in favor of compulsory military training in peace times, and I want to voice my protest against such policy for myself, for my party, for my state and my nation."

Mr. Ferris gave a graphic description of the ravages against civilization wrought by Prussian militarism and declared that compulsory military training in peace times would give birth to a system of militarism for America. "Legislation is being urged in congress," Mr. Ferris declared, "fixing upon the country a system of compulsory military training in times of peace as well as in times of war. I am as confident as I live that such a policy is not only a forerunner of militarism but is militarism in fact." In closing his address Mr. Ferris said amid applause: "I call to my aid in protest the mothers of the world who gave these boys and ask them to voice their protest against this unnecessary thing. I call to my aid every American who loves our institutions and who is opposed to militarism and who believes more in construction than in destruction to enter their protest against the adoption of such a policy as compulsory military training as a fixed American policy. It must not be."

Mr. Ferris today wired the Oklahoma state board of agriculture advising them of the agitation around the capital regarding the devastation of the pink boll worm and asked if Oklahoma is affected with it. Hearings will be held on April 6th on the question of federal quarantine against Texas and Louisiana seed and Mr. Ferris suggested to Mr. Whitehurst that Oklahoma also establish a quarantine against the seed from the pink boll worm community with view to keeping the destructive pest out of the state.

FEEDING CATTLE
POOR BUSINESS

KANSAS FARMERS LOSE THEIR MONEY ON THEIR HERDS FOR PRESENT SEASON.

MANHATTAN, Kans., March 27.—Cattlemen attending the annual convention of the Kansas Livestock Feeders' association at the state agricultural college here today heard ample corroboration of their general assertion that fattening cattle is a losing proposition. An important feature of the program was a report on the college's experimental work in feeding cattle, sheep and hogs. This report stated:

"Even though fed the most efficient and practical rations, the steers lost from \$10 to \$30 a head. These carefully conducted tests demonstrate the fact that the prevalent complaint of losses from cattle feeding operations have been based upon fact."

The silo has come to the rescue of the live stock feeder in this age of high priced grains. "The cheapest grains in feeding cattle for market can be secured only by the maximum utilization of silage," the report said, "but even then heavy losses will result, at present prices of cattle, labor and other feeds necessary to balance the ration."

Some results proven by the experiments follow:

Molasses was found an economical substitute for corn, it being cheaper per ton than corn, and may be substituted up to 6 or 8 pounds a day. As a food, 100 pounds of molasses was equivalent to 150 pounds of corn.

Feeding baby beef is more profitable than feeding mature steers, because the calf requires less for maintenance and grows while he fattens. But it requires a longer period and more grain to make the baby beef weighing 800 to 1,000 pounds at 12 to 14 months of age than it does to fatten mature steers.

In wintering calves, each 100 pounds of growth made on alfalfa cost \$22.37, while each 100 pounds made on silage and cottonseed meal cost only \$13.54.

Under similar conditions, pigs fed on corn and tankage made faster growth than those fed on barley and tankage. Dry ground barley was found superior to soaked ground barley, which in turn gave greater gains than soaked whole barley, but considering the cost, more economical results were obtained with barley instead of corn.

Several small grains were fed to hogs as substitute for corn. Shrivelled wheat is a good hog feed and often can be fed with bigger returns than when sold on the market. In four experiments, shrivelled wheat in each case made better results than equal amounts of corn. Whole wheat and tankage was found to be the most profitable way to feed that cereal.

Rye was fed with less satisfactory results than barley and wheat. Only in case rye is 25 per cent cheaper than corn does it make a paying substitute for the latter.

It cost 24 per cent more to make gains on lambs by the self fed than by the hand fed methods.

Addition of silage and linseed oil meal to a ration of corn and alfalfa reduced cost on producing gains on lambs 14 per cent.

Addition of silage alone to corn-alfalfa-hay ration reduced cost of producing gains on lambs 5 per cent.

Feeding whole barley to lambs cost 18 per cent more than shelled corn.

Fat lambs weighing 80 to 85 pounds demand highest market price. Thus, close made lambs weighing around 85 pounds are the most profitable kind to fatten.

The experimental reports were made by Dean F. D. Farrall and Prof. C. W. McCampbell of the animal husbandry department of the college.

MRS. L. HIXSON ONLY
WEIGHED 79 POUNDS

She Has Gained 36 Pounds By Taking Tanlac And Now Weighs 115 Lbs.— Says Tanlac Has Been the Greatest Blessing of Her Life.

"I weighed only 79 pounds when I began taking Tanlac, but now I weigh 115 and am feeling better than I have in seven years," was the unusual statement made by Mrs. Lucile Hixson, living at 2032 Broadway, Kansas City, Mo., a few days ago.

"Before I began taking Tanlac," continued Mrs. Hixson, "I had become so weak from seven years of suffering that at times I wasn't able to stand on my feet. What I ate nearly always disagreed with me and made gas form so bad that I could hardly get my breath. I was badly constipated and had a pain across the small of my back and my nerves were upset. I was troubled with dull headaches just about all the time and often I had fainting, dizzy spells and I was never able to walk any distance before I felt exhausted."

"My uncle recommended Tanlac to me and now since it has entirely overcome my troubles I will never get through praising it. I am not troubled with indigestion or gas at all and I am eating anything and everything I want and digesting it perfectly. Headaches and dizzy spells have all left me and my constipated condition has been relieved. My nerves are in fine condition and the pain across the small of my back has disappeared altogether. I have gained 36 pounds in weight, can do my housework by myself and I am stronger than I have been in years. Tanlac has certainly been the greatest blessing of my life and I will never be able to praise it enough for what it has done for me."

Tanlac is sold in Ada by Gwin & Mays Drug Co., in Stonewall by L. F. Carpenter, in Francis by Francis Drug Co., and in Roff by Dowdy's Pharmacy.

SAVANNAH, Ga., March 27.—All records for movement of cotton from Savannah have been broken, and the movement is continuing for all parts of the world, including the Orient. Since August 1, the opening of the cotton year, until the first week in March, 89 cotton ships have been loaded here, carrying a total of approximately \$50,000 bales of cotton to foreign countries, and the port is still lined with vessels taking cotton, thought early January in former years has marked this end of the movement. Despite this heavy shipment, the movement is continuing at the rate of 25,000 to 30,000 bales weekly for direct export with almost as much being shipped coastwise.

LYDD GEORGE
CAN'T ATTEND

BRITAIN'S PRIME MINISTER TOO BUSY TO ATTEND BAPTIST CONVENTION AT WASHINGTON IN MAY

DALLAS, Texas, March 27.—David Lloyd George, prime minister of Great Britain and prominent worker in the Baptist Church of England, cannot attend the Southern Baptist Convention to be held in Washington, D. C., next May.

In a letter to Dr. J. B. Gambrell of Fort Worth, president of the convention, Mr. Lloyd George said the demands upon his time were such that it was impossible for him to accept the invitation, signed by 4,200 southern Baptists, to come to Washington in May. He also took occasion to refer to the cordial relations of the United States and the British Empire.

The premier's letter, made public by Dr. Gambrell, follows:

"I shall be grateful if you will kindly convey to the meeting of the Southern Baptist Convention my sincere thanks for their kind invitation to be present at the convention which is to meet this year in Washington."

"I should welcome cordially such an opportunity of meeting my fellow-Baptists in America and of paying tribute to their devotion to those principles which are essential in the life of a community."

"The cordial relations which have for many years existed between your great country and the British Empire and which have been considerably strengthened by their common experiences during the last five years of struggle and turmoil are full of promise for the future. It would give me great pleasure to visit the United States, but I very much regret that the demands upon my time are such as to make it impossible for me to promise to visit your convention this year."

"I wish you and your colleagues Godspeed in the great work to which you have devoted yourselves."

Two Negroes Steal House Pies Off Lumber Yard

DALLAS, Texas, March 27.—Two negroes employed in a local lumber yard were arrested on a charge of stealing lumber from the concern, over a period of several months, in sufficient quantities to construct a complete five room cottage, modern in every detail. The house had been completed before the arrests. Both men confessed, one went to jail, and now the other is trying to raise \$1,500 to cover the cost of the lumber stolen.

Kubelik Invests Large Fortune In Austrian Palace

VIENNA, March 27.—Jan Kubelik, violinist, has just purchased a palace for 5,000,000 crowns. It is announced. A few weeks ago the palace was sold for 2,700,000 crowns. This is an example of the feverish speculation in real estate which has set in here because of pending financial legislation, particularly the proposed levy on the fortunes, and also because of the generally uncertain state of the country's finances. Many large properties in Vienna are reported to have changed hands as often as three times in one week. Palaces have been sold and resold until their prices have doubled.

Furniture Demands From All Sections Cannot Be Filled

GREENSBORO, N. C., March 27. Demand for furniture throughout the country is of immense proportions and it is impossible to make the supply keep up with the demand, according to manufacturers who attended the meeting of the National Council of Furniture Associations held here. There is every reason to believe, these manufacturers say, that the demand will be increasingly great in the future. At the same time it was agreed that the lumber shortage was the most serious difficulty confronting furniture makers and no material relief is in sight at present.

TRADE CONVENTION
GETS MANY PEOPLE

By the Associated Press. SAN FRANCISCO, March 27.—More than 1,200 delegates already have been accredited from the United States and from abroad to the seventh national foreign trade convention here May 12-15, 1920, the Pacific coast committee in charge has announced. An attendance of at least twice that number is assured, it was said. Delegates will be brought to the convention from American points by three special trains run over the northern, middle west and southern routes.

The general theme for the convention will be "The Effect of Being a Creditor Nation," according to James A. Farrell, chairman of the National Foreign Trade council. All of the large cities on the

PAINS SO BAD STAYED IN BED

Young Mrs. Johnston Had Miserable Time Until She Took Lydia E. Pinkham's Vegetable Compound.

Chicago, Ill.—"I was very sick for some time with pains in my sides and back and I could not do my work at times. The pain in my side was so bad, I would have to stay in bed for days at a time. My mother-in-law had taken Lydia E. Pinkham's Vegetable Compound and recommended it to me. It cured my pains and I am now able to do all my work. You can publish my testimonial and I hope the Compound will do others the good it has done me."—Mrs. Anna Johnston, 206 E. 41st Street, Chicago, Ill.

For forty years women have been telling how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It is made from native roots and herbs and contains no narcotics or harmful drugs.

EASTER APPEAL FOR NEAR EAST RELIEF

OKLAHOMA City, March 27.—(Special).—Twenty-five thousand letters bearing an Easter appeal to prospective contributors to the Near East Relief are being sent out from state headquarters in Muskogee this week. According to F. L. Carpenter, state secretary, these letters are expected to bring in as much money as similar letters sent out last Christmas.

The letters tell of the need that exists in Syria and Armenia; of the 450,000 homeless orphans who are starving to death; of the 100,000 Syrian and Armenian girls enslaved in Turkish harems; and of the need for American money to restore the Christian people who were under Mohammedan domination until the allies defeated the Turks and their German allies.

The persons to whom the letters are being sent are those who are amply able to contribute to the work and who, in most instances, are active in church and religious work.

The Near East drive for \$260,000 in Oklahoma is well under way, and a definite statement of the money so far raised is expected within the next week or ten days. Mr. Carpenter says that every indication now is that the state will oversubscribe its quota.

ENGLISH ANGERED BY ABDUL'S GHOST

LONDON, March 27.—Disapproval of the Supreme Council's decision to keep the Sultan on the throne in Constantinople is voiced by many Englishmen who remember Gladstone's fierce denunciation of "Abdul the Damned." The Archbishop of York, speaking at a diocesan conference said: "To the deep disappointment of all that is true in Christendom, the unspeakable Turk is apparent, still to be left in possession of Constantinople. What the results may be is already being sufficed by shown by the tidings received of a renewed massacre of Armenians. I think this is a matter that ought to lie deep upon the conscience of the British people. We have repeatedly and in the most solemn way, given our assurance to these unhappy people that the Allies at least intended to deliver them from the tender mercies of their enemies. We, who have made so much of the shame of regarding solemn obligations as scraps of paper, dare not ignore these solemn and repeated assurances, and some way must be found, if the conscience of Christendom is to be satisfied, for protecting those to whom we have given our solemn bond and promise."

If the United States government definitely refuse to accept a mandate for the administration of Armenian affairs, the British Labor party has indicated that it will insist as an alternative solution that the entire region known as Turkish Armenia be released from Turkish sovereignty.

The party takes an attitude of protecting against any idea of subordinating the Armenian settlement to considerations of Indian policy.

Educator Urges the Hawaiians to Learn English Language

HONOLULU, T. H., March 25.—(By Mail).—One language in Hawaiian schools was the slogan of Dr. Benjamin Ide Wheeler, president emeritus of the University of California, on his way through Honolulu recently en route to the Far East as head for a trade mission.

Concerning the language school problem in Hawaii, which has upwards of 180 Japanese language institutions, Dr. Wheeler said: "I am sorry for the situation in which the foreign language schools of Hawaii find themselves, but they must realize that Hawaii is American territory and that English is the language of America."

At a commercial club luncheon where Dr. Wheeler was the guest of honor during his few hours' stay in Honolulu, the California educator pleaded for a better understanding by Americans of the peoples of the Far East.

GLAD TO TESTIFY PROHIS MAY NAME NATIONAL TICKET

WATOGA, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly... Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then... it would last... two weeks, and was so weakening, and my health was awful."

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three... I gained, and was well and strong, and I owe it all to Cardui. I am married now and have 3 children... Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need.

IMPOSING FUNERAL FOR CHINESE RULER

PEKING, China, March 27.—Imposing pageantry characterized the funeral procession attending removal recently of the body of the late ex-President Feng Kuo-chang to the Peking railway station en route to his native town near Paoingfu. A large framed portrait of the deceased, and his sword and uniform were carried in the cortege and his saddle horse which he is said to have ridden at the head of his troops in the siege of Nanking in 1911 followed. The body was carried in a large red cubical structure supported on the shoulders of thirty or more bearers. It was immediately preceded by the four sons and other members of his family and followed by students, monks and Taoists.

PROHIS MAY NAME NATIONAL TICKET

CHICAGO, March 27.—Whether the prohibition party will nominate a candidate for the presidency and take an active part in the coming presidential campaign depends upon the attitude of the major parties toward the strict enforcement of prohibition, says Virgil G. Hinshaw, of this city, chairman of the party.

There has been considerable speculation among political observers as to whether the prohibition party would or would not continue its political activity now that prohibition has become a constitutional enactment. Questions have been asked whether the prohibition party leaders would feel that the party's object had been attained and the time at hand when prohibitionists might return to or become affiliated with one or the other of the major parties.

Chairman Hinshaw believes the battle is not over; that the fight for enforcement of prohibition is still to be won.

"Our organization," he declares, "will continue as long as the alcoholic serpent continues to wriggle its tail." Concerning the party's attitude in the presidential campaign, Mr. Hinshaw said its policies to be enunciated in its national convention at Lincoln, Neb., July 12, would depend entirely upon the action taken at the conventions of the major parties.

"If the major parties fail to come out unequivocally for strict enforcement of existing dry laws we will certainly run a prohibition candidate for president," said Mr. Hinshaw.

ment of existing dry laws we will certainly run a prohibition candidate for president," said Mr. Hinshaw.

"Of course, it is up to the convention whether we will or will not run one anyway. But if the major parties fail to enforce not only the 18th amendment but existing prohibition laws as well, I believe there will be break-ups that will bring many of our side."

As to the party's probable action concerning lesser candidates, it is said that it "will seek the election of representatives in congress, governors, members of legislatures and others who are charged with the enforcement of the dry law."

Ernest H. Cherrington of Westerville, Ohio, declared that the anti-saloon league, of which he is secretary, will work to defeat candidates who are avowedly opposed to prohibition enforcement.

THE SIGN OF THE CLOVEN HOOF

Yesterday's press dispatches quote Geo. W. Prichard of New Mexico as saying in the Republican convention at Santa Fe that "The peace treaty with Germany was the only treaty so far as this government was concerned that was ever brought forth in a spirit of resentment, if not malice."

Mr. Prichard was the temporary chairman of the Republican convention, and his speech was accepted as the keynote speech of his party in the Southwest. He had been selected as temporary chairman by his party leaders after a careful survey of all available material. His speech had been forwarded to the daily newspapers several days before it was delivered, thus proving beyond doubt that Prichard was expected to sound the slogan for his clans. That his speech had been printed days before it was delivered is proof that his party leaders knew what it contained. That it was sent out by his party leaders is proof that they endorsed its contents.

The burden of the Prichard speech is an appeal for Germany. It is filled with bitter invective against the treaty. It denounces the treaty as conceived in resentment and filled with malice. It seconds the declamation of Knox and Borah against the "murderous peace imposed on Germany." It simply means that the Republican party of the Southwest sympathizes with Germany and believes that Germany should be exempt from the penalties of her crimes.

It means that Germany should not be forced to pay for the ruin she thrust upon the world. It means that the allied nations are criminal for levying a fine on thieves and demanding trial for murderers. It means that German votes are more precious than all the babes who died in the wreckage of the Lusitania. It means that the Canadians crucified at Ypres deserved their fate and that it is malicious to wreak vengeance on their assassins. It means that the violated women and girls of Belgium have been forgotten by a party whose latest presidential campaign was financed by the Hun.

The day after Hughes was nominated in 1916 the head of the German-American Alliance published a boast that his organization had planned the Hughes campaign and had footed the bills. Whose campaign the Huns are financing today does not appear of record but the speech of Prichard at Santa Fe has the familiar jingle of 1916. The war made a coalition with the Hun unpopular for a season, but the wall from Santa Fe proves that the dog has returned to his vomit and the sow that was washed to her wallowing in the mire. The same dirty rabble that burned arsenals, blew up factories, destroyed railroad bridges and poisoned schoolhouse wells, are playing their old nefarious game, and are finding in every state men who will sell the honor of their nation for political advantage.

After all, are we Americans? The mid-war boast was uttered that out of the fire and blood of battle would come a new people purged of every foreign taint, and true to every tradition of Americanism. But the blood on our martyred dead is hardly dried and the dead yet sleep beyond the seas, as another campaign for the emasculation of Americanism opens and the blatant tools of Potsdam make an appeal for rapists and murderers the slogan of a great political party.

Does Prichard represent his party view? Is he expressing the wish of the Republican rank and file? Do the men who fought so loyally to defeat the beast of Berlin endorse his prepared and studied plea for mercy for the foulest bunch of bandits that ever deformed the growth of nature and darkened the light of God's day? In fine, are the loyal Republicans of America ready to spit upon the blankets that wrap our dead in order to placate the most infamous rabble in history?

Newberry might forgive the humiliation of a conviction for felony, but how can he forgive the suggestion that he is not fit to sit in the United States Senate. Angels of light, defend us! If there is any place on God's green earth where Newberry would be among his kind, it is in the American House of Lords.

The record shows that the present congress has done more to honor and recognize the armed enemies of our country in the recent war than it has to honor and recognize the four million Americans who won that war. The record speaks for itself. Read it for yourself.

Hoke Smith is now the "favorite son" of Georgia. It's a poor state that cannot offer at least one favorite son. Ohio has four.

Honest Bill Shows Make Hit With a Big Ada Audience

The Honest Bill shows gave two exhibitions Friday, one in the afternoon and one at night. Both times the tents were filled with men, women and children, mostly residents of Ada. Today those from out of town will probably fill the tents again.

William Newton, who is called Honest Bill, has built up a great show organization. It is not as large as some of the big circuses, but the work is just as good. The collection of animals consisting of camels, elephants, lions, ostriches and other natives of the jungles can be seen and studied. Not the least in importance are the baby camels and baby lions. The two baby camels were born in Ada, one having been given the name of Ada and the other the name of Pontotoc.

The work in the big show is wonderful. The trained dogs, elephants and ponies are equal to any in the world. Cupid, said to be the best educated pony in the world, delighted the audiences by telling the time, counting money, adding and subtracting numbers. He is a marvel and it is worth the entire price of admission to see this wonderful animal.

The acrobatic work is of a high order. W. H. Whitlark, a man of several years of age, is probably the greatest contortionist and acrobat on the rings ever seen in these parts. His age does not in any way impede his skill. The Lathams, trapeze performers, are brilliant performers, showing skill and strength. Schindler is the daredevil on the trapeze and rings.

The concert of wild west riding and roping, under the leadership of Booger Red, is a real show. Booger Red is no stranger to these parts and ranks beneath no one in the world in his ability to ride and rope. His associates are as skillful as himself.

In speaking of the treatment while in Ada, Mr. Newton said: "I feel grateful to the entire citizenship of Ada. I want to thank the men and women for the consideration they have shown me and my family. Kinder people and more thoughtful people I have never known. While we are on our tour this summer we shall keep them in mind and in the fall we shall return here for the winter."

Parks Is Given One Year In Pen For Shooting Neal

One year in the penitentiary was the verdict of the jury in the case of L. S. Parks charged with assault with a deadly weapon. The case went to the jury late yesterday afternoon and the verdict was rendered when court met at 9 o'clock this morning.

Parks was charged with using a shotgun on J. D. Neal, an Indian living near Dolberg. Testimony was introduced showing that Neal had threatened defendant on different occasions, and that when the parties met Parks fired two shots at Neal, one taking effect in his head and neck.

Sentence was passed on G. W. Usary this morning. According to

"UNDER SUSPICION"

A Gem Supreme Among Photoplays

When Betty aided a crook thinking he was an honest man, she threw a blot of suspicion upon one who become her hero. A merry mix-up of five fascinating reels, tensely dramatic and an unusual plot, story and action.

Plague Take These Glasses! All I Do Is Change From One Pair to the Other!

If you are tormented with the inefficiency of using two pairs of glasses, one for near vision and one for far vision, with the constant change, change, change from one pair to the other all day long, Kryptok Glasses will delight you.

Kryptoks (pronounced Grip-tocks) are the most efficient glasses made for people whose eyes need help for both near and far vision. Kryptoks combine near and distance vision in one pair of glasses. Yet their manufacture is so perfectly carried out that

KRYPTOK GLASSES
THE INVISIBLE BIFOCAL

Kryptoks cannot be distinguished from single vision glasses. You cannot detect the slightest trace of a line or seam across Kryptok lenses. They are known as the invisible bifocals. Ask us about Kryptoks. An examination will show you whether your eyes need them.

ADA BOY KILLS MAN; WOUNDS GIRL

Continued from Page 1)

days ago, it was generally thought that she and young Winn would be married.

Judge U. G. Winn, father of the dead boy, believes that he did not commit suicide, but that he was shot by Coleman. It is the Judge's theory that a general fight ensued when young Winn came up to the two in the buggy, that in the fight Coleman and the girl were shot, and that Coleman got possession of the gun and shot Winn as he was running to his horse. He says that indications are there was a struggle and that the physicians who have examined the body say there are no powder stains.

Mrs. Winn is now in Fort Worth and is expected to arrive here tonight. Funeral arrangements will not be made until she arrives, but it is thought that burial services will take place here tomorrow afternoon between 2 and 4 o'clock.

JADE IS POPULAR COLOR FOR SPRING

By ELOISE

Everybody will want a new frock for that Easter Monday dance. It must be something which tells of spring in every fold, some dainty, airy frock which symbolizes the end of the Lenten retreat and the beginning of new life in the trees and flowers. Little taffetas are pretty for the younger girls but the debutantes will still favor chiffons, tulle and soft georgettes.

Here is one of the prettiest new models for dance wear which has been shown. It is developed in jade green chiffon. Jade, by the way, is one of the favored colors of the new season. Hats, frocks and gowns are made up in that bewitching color which is becoming to blonde and brunette alike. Jade jewelry is positively the rage and is usually set in old gold or silver. Long earrings, fancy combs, oriental beads and rings are all being fashioned in jade this year. And they are not inexpensive trinkets either.

Violet orchids and crystal beads form the trimming of this very charming frock. A hoop skirt falls over a Turkish trouser effect forming a delightfully whimsical combination of demure Victorianism and modern Orientalism. Silver brocade slippers are worn with the frock and jade green silk hose and with these milds is ready for the first dance of the spring.

Ten thousand men will be given employment with the construction of the National Tube Company in Gary, Ind., the building to cost \$40,000,000.

If you want, what you want, when you want it, an ad in our want column will get it for you.

The World Moves

The world moves, and it moves forward. Progress is the watchword. Do you realize it? Are you keeping up with the procession?

Your grandfather went courting on horse-back. Your father thought a top buggy was the height of style in his courting days. You are no doubt joy-riding in a six cylinder car with your sweetheart, and your children? Well, they will probably do their courting up behind a bank of clouds in a modern monoplane. Banking has progressed as well as courting. Are you handling your finances through a modern bank like ours, or are you following the antiquated ways of your grandfather.

Muskogee Phoenix: If Senator Jim Reed continues his vituperative attacks upon Mr. Hoover much longer a majority of voters in both parties will want Hoover for president.

Tishomingo Capitol Democrat: There are various ways of meeting trouble, but the man who carries a pistol, expecting it to save him from such an occasion, has selected about the most uncertain.

Muskogee Phoenix: Hoover ran third in the republican primaries in Minnesota despite the fact that there was no campaign on his behalf and his name had to be placed upon the ballot by stickers.

OKLAHOMA CITY TIMES: That man who was arrested at Grand avenue and Broadway for seeing the sights on a windy day recently, probably thinks there should be a revival of the slogan, "See America First."

VISALIA, Cal., March 24.—The Tulare County Pomona Grange has gone on record as opposing extravagance through adoption of this resolution:

"Resolved, That we, the members of Tulare County Pomona Grange, No. 5, declare that it is no disgrace to wear old clothes.

"Resolved, That we discourage the purchasing of extravagant articles and the wearing of expensive apparel and that more labor and energy be expended in the production of medium priced and serviceable articles, thus bringing about a reduction of cost."

MARSHALS RAIDING MOONSHINE STILL

By News' Special Service

MUSKOGEE, March 27.—After a week's campaign in the McAlester district that led to the arrest of thirteen men of liquor charges and that resulted in the pouring out of over 2,000 gallons of whiskey and Choctaw beer and the confiscation of seven complete stills and as many more "choc" joints, T. E. Brents, assistant chief special Indian enforcement officer and his party, returned Thursday to Muskogee.

Nearly 1,500 gallons of mash and 100 gallons of liquor were found in one joint near McAlester, where five complete stills were in operation. Gasoline stoves were used by the four men who had charge of the distillery and every bit of paraphernalia that could be used was in evidence.

Supplies Are Captured.

Fourteen cases of loose raisins, a big meat grinder for chopping up the raisins, a tub of chopped up raisins, another tub of washed raisins, two automatic shotguns, one single-barrel shotgun, a rifle and two pistols were among the equipment taken.

The raids were conducted at the direction of Cato Sells, Indian Commissioner. Besides Mr. Brents, the following officers were active: J. B. Dowell, special Indian officer; J. P. McCormick, deputy special officer, and F. M. Warner of the Indian service.

"We got the big still only after a little race," said Mr. Brents. "Lewis Cappa, a boy, was in the field on a horse to watch for officers. He saw us but we were in a machine and beat him to the shed. There we found three stills in operation and the other two ready for use.

Each of the five vats held 300 gallons of raisin mash. Two barrels of liquor were on hand. They could make a barrel a day—or fifty gallons. The front of the shed was used for a cow barn to disguise the real purpose of the place."

Just before leaving for McAlester, Mr. Brents had captured E. A. Fry, who pleaded guilty to violation of the Reed amendment and was fined \$200.

Joe Silva, Tony Cesta, Lewis Cappa and Joe Ozello were the four captured at the big still. Raphael Cavillo was running a "choc" joint near McAlester, while Joe Norris and Walter Zalanc had "choc" joints near Hartshorne. Zalanc also had four gallons of whiskey, officers say.

Other Results of Raid.

E. M. Johnson and Litha Payne, both negroes, had "choc" joints near Adamson.

Hobby Anderson had a still in the basement of his house near Gowan. A trap door led into the place. Jim Gibson, negro, had a "choc" joint near Gowan. All are under arrest.

"We were instructed by Mr. Sells to clean up everything we found," said Mr. Brents, "and we tried to follow our instructions. We raided several other places, but when we couldn't get good evidence as to the commercial character of the place, we merely poured out the liquor and mash. It amounted to well over 2,000 gallons in all.

U. S. MARINES DROP ST. PATRICK'S DAY

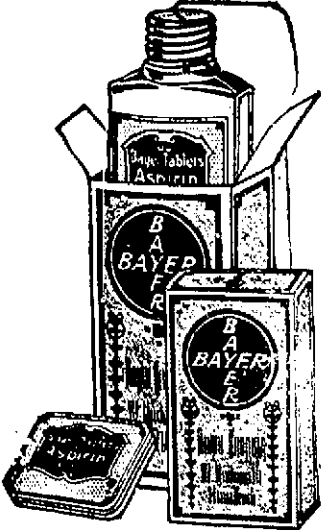

By the Associated Press

SAN FRANCISCO, March 27.—Much to the disappointment of many Irishmen, March 17, 1920, was completely blotted from the calendar by a detachment of U. S. Marines who recently left here for errands of duty in the Orient.

In order to keep the time straight west-bound ships set the clock ahead twenty-four hours when crossing the 180th meridian. The transport on which these U. S. Marines are sailing reached that meridian on March 16. They "turned in" regularly that night and awoke next morning to find that it was March 18.

EAGLE SHIRTS

IT is our business to know good merchandise. We recommend Eagle Shirts.

Experts have experimented in the maker's own mill with designs, colors and varieties of yarn to achieve exceptional patterns—as if pattern were everything. Fabrics have been woven in the maker's mill where they are conceived—with as much care as though beautiful cloth were the only consideration. This manufacturer of over fifty years' experience has been constantly bettering every detail of cut and tailoring—as if workmanship alone would sway a man.

We know these things. That is why we believe in Eagle Shirts. That is why we want you to see our window display of Eagle Shirts; why we want you to come in, examine them, buy them, wear them. You'll understand then why we recommend them so heartily.
